ABOUT US

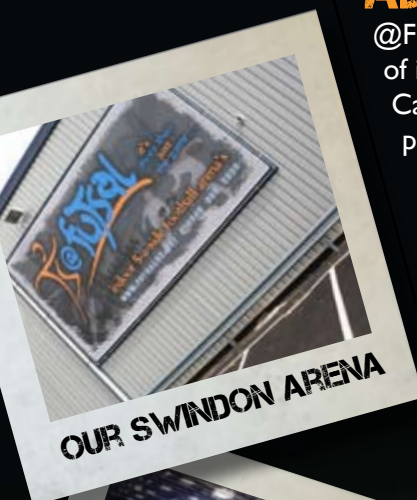

@Futsal Limited is the UK's leading 5-a-side futsal operator and is engaged in a national roll-out program of indoor football arenas. Two facilities have been built in the last year, one in Wiltshire and another in Cardiff, which are both in full operation. The business is backed by a multi-million pound investment program, funded by Foresight Group a leading institutional investor.

We work closely with national football associations who have made Futsal their approved format for small sided football in the UK, to coincide with FIFA and global developments. We hold the FA small sided operator award at advanced level, which is the highest award in England.

The arenas are state-of-the-art facilities that are revolutionising the way indoor football is played. We are now in the process of sourcing property for the rapid roll-out of the next tranche of sites in key locations across the UK.

PROPERTY SOURCING: OUR REQUIREMENTS

- 60,000 - 100,00 sq feet
- Warehouse or light industrial
